

CALL FOR PAPERS

The Third International Symposium on Security in Ubiquitous Computing (SecUbiq-07)

<http://grid.hust.edu.cn/secubiq07/>

to be held in conjunction with

The 2007 International Conference on Embedded And Ubiquitous Computing (EUC'2007)

Dec. 17-20, 2007, Taipei, Taiwan

General Co-Chairs:

Zonghua Zhang, University of Waterloo, Canada
Jemal H. Abbawajy, Deakin University, Australia

Program Co-Chairs:

Emmanuelle Anceaume, IRISA /CNRS, France
Deqing Zou, Huazhong University of Science and
Technology, China
Jong Hyuk Park, Hanwha S&C, Korea

Steering Committee Chair:

Laurence T. Yang, St. Francis Xavier University, Canada

Program Committee:

Jemal Abawajy, Deakin University, Australia
Leemon Baird, US Air Force Academy, USA
John T. Brassil, HP Laboratories, USA
Yuanshun Dai, Indiana University-Purdue University, USA
Arjan Duresi, Louisiana State University, USA
Hanping Hu, Huazhong University of Science and
Technology, China
Hua Ji, Juniper Networks, USA
Zhiping Jia, Shangdong University, China
Zhen Jiang, West Chester University, USA
ShiGuang Ju, Jiangsu University, China
Seungjoo Kim, Sungkyunkwan University, Korea
Yoohwan Kim, University of Nevada, USA
Raymond Li, CISCO, USA
Sanglu Lu, Nanjing University, China
Jianhua Ma, Hosei University, Japan
Antonino Mazzeo, Second University of Naples, Italy
Jason A. Moore, US Air Force Academy, USA
Yi Mu, University of Wollongong, Australia
María S. Pérez-Hernández, Universidad Politécnica de
Madrid, Spain
Xiao Qin, New Mexico Institute of Mining and
Technology, USA
Jae-cheol Ryou, Chungnam National University, Korea
Kouichi Sakurai, Kyushu University, Japan
Dino Schweitzer, US Air Force Academy, USA
Chi-Sheng (Daniel) Shih, National Taiwan University, Tai
Wan
Xinmei Wang, Xidian University, China
Chuan-Kun Wu, Chinese Academy of Sciences, China
Yang Xiao, The University of Memphis, USA
Ming Xu, National University of Defence Technology,
China
George Yee, National Research Council, Canada
Meng Yu, Monmouth University, USA
Ning Zhang, University of Manchester, UK
Xukai Zou, Indiana-Purdue University, USA

Important Dates

Paper Submission deadline	<i>May 17th 2007</i>
Notification of Acceptance	<i>August 6th, 2007</i>
Final Manuscript Due	<i>September 4th, 2007</i>

Contact

For further information regarding the symposium
and paper submission, please contact:
Laurence T. Yang at ltyang@gmail.com
or Deqing Zou at deqingzou@hust.edu.cn

Objectives: Ubiquitous computing paradigm foresees seamless integration of communicating and computational devices and applications (e.g., smart sensors, wireless networks and mobile agents) embedded in all parts of our environment, from our physical selves, to our homes, our offices, our streets and so forth. Although ubiquitous computing presents exciting enabling opportunities, the benefits will only be realized if security issues can be appropriately addressed.

The overall aim of this symposium is to provide a forum for academic and industry professionals to discuss recent progress in methods and technology concerning the identification of risks, the definition of security policies, and the development of security measures for ubiquitous computing.

Topics: Topics of interest include, but are not limited to:

- * Access control and firewalls
- * Ad hoc and sensor network security
- * Buffer overflows
- * Commercial and industrial security
- * Cryptographic algorithms
- * Data privacy and trustiness
- * Digital signatures
- * Distributed denial of service attacks
- * Information hiding and multimedia watermarking in distributed systems
- * Internet and web security
- * Intrusion detection and protection systems
- * Key management and authentication
- * Mobile codes security
- * Network security issues and protocols
- * Privacy and anonymity
- * Privacy issues in the use of smart cards and RFID systems
- * Security in e-commerce and e-business and other applications
- * Security in P2P networks and Grid computing
- * Security in distributed and parallel systems
- * Software security
- * Trust management

Paper submission: Authors should submit the softcopy of paper in PDF, PostScript, or MS Word format online. The paper is at most 15 pages, including abstract, key words, e-mail address of the corresponding author and references. The accepted papers will be published by Springer's Lecture Note in Computer Science (LNCS). (Note that SecUbiq-07 does not require anonymized submissions.)

To submit a paper, please visit:

<http://ehplab.stfx.ca/~secubiq07/>
